

A **trailer interchange agreement** is a contract that arranges to transfer a trailer from one trucker to another in order to complete a shipment. Typically, the trucker in possession of the trailer is responsible for paying any damages that are incurred while they have the trailer.

Trailer Interchange insurance provides Physical Damage insurance for trailers being pulled under a trailer interchange agreement. This is essentially Physical Damage insurance for non-owned trailers. This insurance protects you if the trailer is damaged by collision, fire, theft, explosion or vandalism.
